

AIMAN KHATOON

Lucknow, UP 226022 | +6391624191 | aimankhatoon43@gmail.com

Career objective

M.Sc. Biotechnology student with a strong academic background and a passion for teaching life sciences. Experienced in simplifying complex scientific concepts and engaging students through interactive teaching methods. Seeking opportunities to contribute to education, research, and academic development.

Education

Master of Science: Biotechnology

Jun 2025

Integral University- Lucknow, India

Master with Distinction

- CGPA [8.50]
- **4 Month dissertation project:** To investigate the role of BPA in PGC1 Alpha induced mitochondrial Biogenesis and its effect on Breast cancer cell Migration, at **Food Toxicology lab, CSIR-Indian institute of Toxicology Research LUCKNOW**

Bachelor of Science: Zoology, Botany, Chemistry

Jun 2022

Integral University - Lucknow, India

- Major in Zoology & Chemistry
- Graduation with Distinction
- CGPA [7.54]

4 Month Dissertation: Evaluation of multi antibiotic resistance in Environmental bacteria

- Calculate the population of bacterial colony with different dilutions Antibiotic sensitivity test. **at Integral University Lucknow**

Summer research internship:

Integral university – Lucknow, India

Objective- Computational insight: **Exploring molecular docking strategies for drug development.**

- Microbial techniques
- Phytochemical analysis

Seminar and workshop:

EXPERIENCES: International Seminar on Application of Microbes in Synthetic Biology and Allied Sciences: **Attend an International Seminar about microbes application in synthetic biology.**

2 days Workshop on Molecular Biology & Biochemistry Techniques

24/08/2024 to 25/08/2024

Indian Institute of Technology_ Kanpur ,India

Extra curriculum activity

- International Microorganism day, Participate in Exhibition Competition.
- Certificate of Appreciation, for Volunteer in convocation .
- Advance Techniques in oncology: 1month ,Department of Biosciences, Integral University, Lucknow (Value Added Course).

Skills:

Classroom management

Lesson planning & time management

Basic lab techniques (Microscopy, Staining, Slides)

Demonstrating experiments for school level

Organizing science activities and small projects

Technology Integration (Smart Class, PPTs, Google Classroom)
