Education

Integral University

Bachelor of Technology in Computer Science

August 2022 – Present(8th sem)

Lucknow, India

- CGPA: 8.9 / 10.00

Montfort Inter College, Lucknow

Senior Secondary Education (Class XII, CBSE Board)

Graduated: 2022

Lucknow, India

- Percentage: 88%

Montfort Inter College, Lucknow

High School (Class X, CBSE Board)

Graduated: 2020

Lucknow, India

- Percentage: 88%

INTERNSHIP

Codsoft

Python Programming Trainee (Virtual Internship)

June 2024 – July 2024

Certificate [↗](#)

- Worked on developing Python-based solutions and small-scale projects to enhance programming logic and problem-solving skills.
- Gained hands-on experience with Python libraries .
- Completed tasks and assignments under guided mentorship, simulating real-world software development scenarios.

etrainIndia in collaboration with Integral University, Lucknow

June 2025 – July 2025

IBM Python for Data Science (Internship + Global Certification Program)

- Successfully completed a 30-day internship and global certification program on **IBM Python for Data Science**.
- Developed hands-on experience in Python programming, data analysis, and data visualization using IBM tools.
- Learned to implement data science workflows and apply Python-based techniques for solving real-world problems.
- Certificate:** View Here [↗](#)

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL, NoSQL, HTML, CSS

Developer Tools: VS Code, Android Studio

Technologies/Frameworks: Linux, GitHub, ReactJS, NodeJS, Git

SOFT SKILLS

Communication: Effective verbal and written communication, active listening, and presentation skills.

Teamwork: Collaborative mindset, ability to work in diverse teams, and leadership experience.

Problem Solving: Analytical thinking, creativity, and decision-making in complex scenarios.

Adaptability: Quick learner, open to feedback, and flexible in dynamic work environments.

Time Management: Efficiently prioritizing tasks and meeting deadlines under pressure.

PROJECTS

Python Mini Projects [↗](#) | Python, Random Module

June 2024

- Developed a GUI-based **Calculator App using Python Basics**, supporting basic arithmetic operations with a responsive layout.
- Created a **Rock-Paper-Scissors game** with a CLI interface, using Python's `random` module to simulate opponent moves.
- Focused on beginner-friendly Python principles including conditional logic, event handling, and modular code structure.

Tetris Game | HTML, CSS, JavaScript, Canvas API

April 2025

- Built a fully functional Tetris game using **JavaScript and HTML5 Canvas** to render game blocks and manage gameplay logic.
- Implemented features such as **line clearing, score tracking, game over detection**, and increasing difficulty levels.
- Applied responsive design principles and styled the interface using **CSS Grid and Flexbox**.

Inventory Demand Analysis | Python, Pandas, Matplotlib, Seaborn

June 2025

- Performed **exploratory data analysis (EDA)** on a retail dataset containing inventory, sales, and promotional data.
- Used **Matplotlib and Seaborn** to generate visualizations including KDE plots, boxplots, and pie charts.
- Identified sales patterns across regions and seasons, handled missing values, and analyzed **correlation between features**.
- Documented insights and results in a well-structured Jupyter Notebook to support data-driven decisions.

EXTRACURRICULAR

Art Club

August 2023 – March 2024

Art Coordinator

Integral University, Lucknow

- Volunteered in community outreach programs by creating banners and posters for university-led awareness campaigns.
- Led a team of student artists to design visual materials for campus events and festivals.
- Collaborated with other clubs to integrate art into technical and cultural fests, enhancing visual appeal.
- Provided mentorship and support to junior members in improving drawing, painting, and digital illustration skills.
- Received a certificate of participation. [View Certificate](#)
